In the United States, the book was published by Simon & Schuster in June 1986. Barker wrote the first drafts of the manuscript on a computer in 1984, and later rewrote and expanded them on paper. The novel concerns an unspecified malady that seems to be spreading through a section of the United Kingdom. The principal characters are two policemen and a housekeeper, who comes to suspect a supernatural agency. In a review for Publishers Weekly, Erik Mona wrote that "this book is shocking in the way that all Clive Barker novels are shocking... This is a remarkably well-told story with a constantly eerie tone that would not be out of place on television, were Barker to choose this story to adapt himself." The story was filmed in 1999 by a Spanish director, Santiago Segura, titled El Infierno (The Hell) and also released in the United Kingdom in 2002. In 1999, The Cinephilia Club released an edition of The Damnation Game containing all 20 pages of the early manuscript, which was drawn by Barker. Plot "K" is a university-educated professional woman and the estranged wife of "D" (described as "A large man who lives in a small house in a village"), a policeman who is killed while performing his duty. K is forced to take in an eccentric, antisocial woman named "M" (whose name is a pun on the medical term melanoma) while recovering from her husband's death. "M" has a son "R", who is a self-loathing teenager. At this point in the narrative, the text only gives her first name. The book is set in an unspecified region of the United Kingdom, presumably Northern England, where a malady is spreading. After receiving a severe sunburn, K begins to hallucinate, at first encountering an amalgam of other people's memories and voices, and later encountering an intrusive entity that manifests through her senses. The entity causes her to hear footsteps and the screams of a young girl, which are presumed to be coming from "M"'s house. K investigates and finds R and his friend Mike, who becomes a key figure in the narrative. After visiting the house, K returns to "M"'s house, where she finds a bloody shoe print in the middle of the room and a photograph of D on the floor. Later that day, the police turn up with the corpse of "D", and K is taken into custody. Despite her antipathy 82157476af
