PLANE 10!**

There are only very few places on earth with such beautiful scenery in close proximity to an airport as it is with Stewart Airport in British Columbia. At the end of the Portland Canal, almost on the border between the USA and Canada, there lies the town of Stewart with a small, but well-known and popular airport. Tall and majestic mountains tower like walls on both sides of the airport. Combine this complex terrain with bad weather, which usually is the case for most of the year in this region, each approach and departure will be a real challenge.

The Scenery "CZST - Stewart" is up to date the most detailed add-on you can get for the "X-Plane 10" simulator. Discover these details with their high-resolution textures, in a plane or a helicopter and enjoy.

One of my favourite strategy games.

+old isometric graphic

+music

+hard (many missions you may finish in 2-10min if you know how do it or you fight 30-60min because you start building and do technology and in the same time opponent create only army)

+multiplayer

+map editor creator (you may create army and without save the map go to battle and create your new army or opposite in the same time)

+colonial history of the United States

+8 campaigns every with 5 missions

. Game still has game breaking bugs well after release. not recommended until they are fixed.

Here is why, I bought this and was looking forward to the new features and stuff, however they cancelled the game because they got a little bit of hate and some companies declined having their character in the game

DO NOT BUY. Ugulem to spoko gra byla ale ja teraz usuneli znaczy zamkneli i godziny mozna nabijac ale jest haczyk bo nie mozna grac jezu szkoda. Jak just survive nie dziala to jest spoko alternatywa nazywa sie Just Fishing jak mieliscie yellow parke dostajecie bonus w just fishing w postaci rybieniu łów i jest spoczi :). This game is more empty than a Politicians Promises. Where to begin....

Whether it be through the subtle critique on capitalism through the two-headed alien running the ice cream shop/rocket or the eloquent metaphors for our generation's fight for equality and acceptance with varying gender roles through being able to change your color in the diner, there's a little something for everyone in this game.

For me, the most powerful metaphor was in the beginning.

In an incredibly powerful parallel of Genesis from the Bible, Putt Putt enters the fireworks factory but is warned not to pull the bright red lever. In a stroke of genius, the lever is inevitable pulled. However, it's because you let in a butterfly and your dog jumps on the lever attempting to catch it. Not only does this imply that maybe Adam and Eve being kicked out of the Garden of Eden was accidental; but it has quite an interesting sub-statement about The Butterfly Effect and Chaos Theory.

In this game, Putt-Putt goes for a ride and so will you by playing it. It's not the longest game but the subject matter more than makes up for it.

10/10. you: oh hey i want a civilization!

game: no im gonna crash

d o n t b u y i t. Old s(Cool)

Does as advertised. It's relaxing, though also brilliant in its way; I've never played a game that used the same mechanic (using rope to cover as much of a surface as possible). On the Summer Sale it's all of a \$1, so there really isn't a good reason not to check it out.. Greate game. Great Little game.. I think this game has the potential to be really awesome but in its current state, it feels like its missing "nuts and bolts". Its fun going out and doing the "hunts" and getting random stuff but the "stuff" you obtain is ultra simplistic. We are essentially grinding to get hunger/health and some bombs.

I will give it a thumbs up because I have faith they will tweak the game over time.

Two biggest things that need tweaking:

1.) The maps need more "meat and potatoes"... Maybe random humonoid patrols or random events... Something to make the world a little bit more alive. It feels like a walk/run simulator just like every other survival game I have played. It is as if the word "survival" in a game means you need very long travel times.

2.) Itemization... The character can equip 4 items... Primary/secondary weapon.... A shield... and a "potion" which is like a trinket that grants one benefit such as resistance or more health.... This is way to basic. More slots and more variety for both "trinkets" and weapons is needed.

Overall, the game concept is there but the implementation of how and why is super simplistic.

7V10 Rating in its current state with massive potential to be a lot better with some patches.. 140 images of middling quality.

The costumes are a little sub par and so is the photography. It's not bad, it's just not brilliant.

Most of the images are just very minor variations on each other.

The girls are quite pretty.

Costume 5V10

Scenery 5V10

Photography 5V10

Quantity 10V10

Variety 3V10. Wow.

I have around a 30 minute tolerance in VR. (HTC Vive) normally due to boredom.

This freckin game knocks it out of the ball park. It's a game I can play all afternoon.

Best money spent so far on a vive game. It's mind blowing. I hope the devs keep updating.

10 out of 10. Started to use this software at end of 2013 or early 2014, very good because imgur upload, very easy to setup, images can be edited before upload, and can upload to anywhere.. The game is boring at first but once you start to unlock the first upgrades, it gets easier. What keeps the game interesting is the bosses at each 100 points earned and the fact that each level gets harder and harder. The only downside of the game is that there is only 5 upgrades, which don't take long to get! The only thing I think is missing is the lack of upgrades..
